Alloy Screw Pin Shackles, Crosby, Wide Body G-2169

Product information

- Capacities of 7, 12.5 and 18 metric tons.
- Proof Load is 2 times the Working Load Limit.
- Individually proof tested and magnetic particle inspected.
- Meets or exceeds all requirements of ASME B30.26 including identification, ductilit design factor, proof load and temperature requirements. Importantly, these shackles meet other critical performance requirements including fatigue life, impact properties and material traceability, not addressed by ASME B30.26
