Harness Hybrid Airtech

Product information

Rear / dorsal D-ring

Work positioning D-ring

Universal body harness, ideal for industrial works, and for suspension work as well. It is specifically designed to facilitate the vertical movements on rail or cable system. Quick and easy to put on, ultra-comfortable and multipurpose.

Features:

- Adjustable shoulder, belt, and lower part of the thigh straps. Totally openable, can be put on with the feet on the ground.
- Thigh straps and belt straps are provided with automatic buckles for easy adjustment. 4 equipment-holding handles for keeping extra karabiners and accessories, and 2 tool-holding D-rings.
- Soft padding on waist and leg straps for extended comfort. Pull-down D-rings, to avoid unintentional bumping.

Anchoring:

- 1 dorsal D-ring (A) and 1 sternal attachment (A/2) made of 2 textile loops for fall arrest system.
- 1 ventral attachment made of 2 textile loops at waist level for rope access.
- 2 lateral D-Rings for work positioning.
