

Crane Slung Drum Tilter

Product information

Regardless of access the Crane Slung Drum Tilter allows for the safe discharge from steel and plastic drums with minimal ease within any confined space, with the option of crank handle or looped chain for low or elevated level controlled discharge.

Standard Features

- Robust gearbox allowing drum to be locked and held at any angle
- Three point mechanical restraints to prevent drum slippage
- Twin 50mm wide webbing strap with ratchet restraint
- Painted bright orange for safety

Optional Features

- Plastic drum adaptor
- Fork mounting frame
