

Skates Nylon Wheeled Budget LX Yale

Product information

This LX range of load moving systems are now available as a 'low cost' alternative to our premium Steerman range of skates.

These three-point loading systems comprise of a steerable front and a pair of adjustable rear skates that are supplied complete and ready to use.

The steerable front skates (LX-6F and LX-12F) are supplied complete with steering handle/towing bar and the rear skates (LX-6/12R) are supplied complete with two adjustable alignment bars.
