

Material Lift - Genie Superlift Advantage

Product information

Our material lifts can be used for most handling applications such as maintenance or installation.

The maximum S.W.L. of the lifts is 454kg and the maximum H.O.L. (height of lift) available is 7.62m.

Made with a lightweight aluminium construction, these lifts can easily be transported and can access the most restricted areas

| Code | WLL ton | Max. lifting height m |
|--------|------------|--------------------------|
| SLA-25 | 0.295 | 7.42 |
| SLA-20 | 0.363 | 5.94 |
| SLA-15 | 0.363 | 4.46 |
| SLA-10 | 0.454 | 2.97 |
