D Shackle with Safety Pin SS

Product information

Shackle manufactured from stainless steel EN10088 1.4404 (Marine Grade 316L). Excellent for lifting applications where a high level of corrosion resistance is required.

- Thick lugs on the shackle pins ensure that the product is both durable and dependable
- Special design of bolt ensures the nut is positioned correctly allowing sufficient room for the cotter pin
- Every shackle is proof load tested to 2 x WLL and certified at our manufacturing facility in the North East of England
- All shackles are manufactured in accordance with the Machine Directive 2006/42/EC
- Inspection certificate BS EN 10204 3.1 available on request
- High quality finish and excellent polish
- Manufactured using the latest technology in electrical upset forging
