

Load Shackle TS-3.0 - Telemetry

Product information

The DLM Telemetry Shackle is a high strength marine grade wireless Load Cell. Manufactured from industry leading Crosby and GN shackles along with a stainless steel load pin, the DLM Telemetry Shackle offers reduction in weighing headroom with the flexibility of 2.4GHz licence free wireless load transmission.

The DLM Telemetry Shackle can be used with one or multiple TW-3.0-T Handheld Displays showing the load.

Features:

- Rugged design
- Ability to transmit to multiple hand held displays
- 2.4GHz license free frequency
- 800m range (line of sight)
- Stainless steel construction
- Low headroom when rigged
- Supplied with load centering bobbin
- Remote power on/off feature
- Sleep mode for battery conservation

Marking: CE-marked, UKCA-marked

Temperature range: -20°C up to +60°C

Finish: Galvanised
