ROV Hook RUD

Product information

- The RUD ROV-HOOK eliminates the risk of snagging and accidental rigging.
- The outer profile is smooth with no protruding hook nose.
- Outwards opening safety latch.
- The safety latch automatically closes when the ROV releases the triggers.
- The safety latch is securely locked in closed position.
- The hook can be operated by all commonly used ROV manipulators, including the grabber.
- The hook safety latch opening and closing can be operated by a single ROV manipulator.
- The hook design minimises the time the ROV takes to carry out the attachment/detachment operation.
