

Corner protector for roundsling

Product information

Haklift corner protectors for round slings are designed to protect lifting slings from wear caused by sharp edges and abrasive surfaces. It's improve lifting safety and extend the service life of web slings, particularly in demanding lifting, construction, and industrial applications.

The corner protector is made from 100% polyester, which offers good resistance to mechanical stress. The openable velcro strap fastening allows quick installation and removal from the sling, making it practical and efficient to use on site. [... Read more](#)

Material: 100 % Polyester
