Battery Drill Winch DW1000 Painted

Product information

The worm gear winch can be operated both manually and with a cordless drill. A user-friendly winch and often used as a back-up system. If there is a power failure and you want to move a heavy load quickly and effectively, the use of a battery-powered drill offers a solution. The winch is equipped with automatic grease lubrication and a special flexible adaptor to absorb the vibrations of the drilling machine and keep the winch in good condition.

- load pressure brake with double ratchet system for safe stable hold of the load in any position
- cable outlet upwards, downwards or at rear
- protection classification IP54
- automatic grease system for the worm gearing
- adjustable crank
- drill and hand operated
