Soft UHMwPE Shackles

Product information

Donaghys' Soft Shackles are the perfect replacement for the traditional metal snap shackle and screw shackles. Made from HMPE, Soft Shackles are a versatile tool with many applications. The shackles are adjustable and made to connect strops or slings to vehicles, blocks or sheets on a boat.

Features:

- The perfect replacement for traditional metal shackles
- UHMwPE soft fibre shackle
- Made to connect strops or slings to vehicles
- Will not rust or corrode
- Soft and will not damage surfaces around it
- Does not require tools to use
- Will not shatter in the event of a failure as with metal shackles
- Versatile, lightweight, safe and easy to use
- Designed to use in conjunction with Donaghys Mongoose® Recovery Strop range
- All shackles 22.1 tonne and above comes complete with cover
- Optional covers available on other sizes on request
