

Grab Hook E Green Pin® UCRO

Product information

The Green Pin® Grab Hook E is a grade 10 eye grab hook. Grab hooks are designed with a special curved narrow throat used to "grab" and shorten or hold a length of chain used in general lifting applications. In case of asymmetric load, the grab hook can be used to adjust one or more legs of the sling. The curved design of this throat makes inserting the chain easier and quicker. Once fitted the chain is perfectly secured, because the curved throat avoids the chain to slip out and two pitches support the link properly. The flat on the eye enables the assembly with an omega link. 100% load capacity. The Green Pin® Grab Hook E is available in a range to suit 6 mm up to 16 mm grade 10 chain.

Certification on request: 2.1, 2.2, 3.1, MTCa, MPIb
