

Drempro Breathable Jacket Hybridpro+

Product information

A REVOLUTIONARY article on the work clothing market: It maximizes the comfort available to Professional Fishermen.

The Drempro jacket combines very technical fabrics worn in intensive offshore conditions, with our historical know-how in protective clothing for the activities of professional fishermen. Truly an INNOVATION, this jacket brings newfound comfort to the work environment. The upper part of the jacket is made from the highly technical breathable DREMTECH + fabric.

This is a high-tech breathable, comfortable, tough fabric. Made of 3+2 layers in all the parts of the DREMPRO jackets that are used most are made of NYLPECHE fabric, since this is a benchmark when it comes to durability. Moreover, it still has all the qualities and technical details that have contributed to the reputation of the brand in professional circles, such as toughness, and suitability for work.

Features:

- "MAGIC" hood (patented) that moves with the head. Allows a hard hat to be worn.
- Heavy duty large teeth zip fastener beneath double self-grip flap.
- Snap-fastening elasticated cuffs with gusset.
- Waterproof flap pockets.
