Lifebuoy Light Aquaspec - AQLBL

Product information

The AQLBL Lifebuoy Light is a lithium battery powered man overboard emergency light to be installed with a lifebuoy. When the light enters the water, the head of LED lamp will float above water due to the gravity design and the water sensors will automatically activate the light.

Features:

- Powerful white flashing LED light
- Gravity sensor activates light
- Deactivates when LED lamp is downwards
- Functional, simple and compact design
- Fixing clip designed for easy installation
- Maintenance free five-year battery life
- Tamper-proof
- USCG Approved
- MER (Red Ensign) Approval
- MED (Ship's Wheel) Approval
