Inflatable Lifejacket Kappa LALIZAS

Product information

The LALIZAS Kappa Inflatable Lifejacket is an automatic 180N inflatable lifejacket designed for offshore sailing, professional marine use, and recreational boating. Certified in accordance with ISO 12402-3 and ISO 12401, it combines reliable buoyancy with an ergonomic design that provides unrestricted movement and comfort during extended wear.

Best used for:

- Offshore sailing, cruising, and professional marine operations requiring a 180N automatic lifejacket.
- Users needing an integrated safety harness with comfortable all-day wear and easy equipment inspection.

Product benefits:

- Certified in accordance with ISO 12402-3 and ISO 12401 (CE).
- 180N buoyancy suitable for offshore and demanding marine environments.
- Nylon ripstop with PU coating and neoprene panels improves durability and wearing comfort.
- Indicator window enables quick visual inspection of inflator status.
- Twin crotch strap, reinforced D-ring and safety knife pocket enhance onboard functionality
