Inflatable Lifejacket Theta LALIZAS

Product information

The LALIZAS Theta Inflatable Lifejacket is an automatic 290N inflatable lifejacket designed for offshore sailing, commercial marine use, and demanding rescue environments. Certified in accordance with ISO 12402-2 and ISO 12401, it provides high buoyancy for users wearing heavy clothing while maintaining comfort and unrestricted movement during extended wear.

Best used for:

- Offshore sailing, search and rescue, and professional marine operations requiring high buoyancy.
- Users wearing heavy weather gear who need an ergonomic lifejacket with integrated safety harness and sprayhood.

Product benefits:

- 290N buoyancy supports users wearing heavy protective clothing.
- Certified in accordance with ISO 12402-2 and ISO 12401 (CE).
- Nylon ripstop with PU coating and neoprene panels improves durability and wearing comfort.
- Indicator window enables quick visual inspection of inflator status.
- Twin crotch strap, harness, D-ring and safety knife pocket enhance onboard functionality.
