

Inflatable Lifejacket Vacuum Packed Delta Auto LALIZAS

Product information

The LALIZAS Delta Auto 150N SOLAS inflatable lifejacket is a vacuum-packed lifejacket designed for commercial and professional marine applications where certified life-saving equipment and efficient storage are essential. Its compact vacuum-packed design reduces stowage space while providing automatic inflation, SOLAS/MED compliance, and an integrated LED lifejacket light for improved visibility during emergencies.

Best used for:

- Cargo vessels, fishing vessels, navy and passenger vessels.
- Lifeboat stations and vessels requiring compact SOLAS-compliant life-saving equipment.

Product benefits:

- Vacuum-packed design saves valuable onboard storage space.
- Automatic 150N inflation provides rapid buoyancy when activated.
- SOLAS/MED approved for commercial maritime applications.
- High-visibility yellow chamber with reflective tape improves casualty detection.
- Supplied with pre-installed LALIZAS Safelite IV LED lifejacket light for enhanced visibility.
