

Lifejackets 100N LALIZAS

Product information

The LALIZAS Lifejacket 100N is a foam lifejacket designed for users who may need to wait for rescue in sheltered waters. It provides inherent buoyancy and is engineered to turn an unconscious wearer into a face-up position while supporting the head above the water. Certified to ISO 12402-4:2020, it is suitable for recreational and professional marine applications.

Best used for:

- Recreational and commercial marine activities in sheltered waters.
- Adults and children requiring a 100N foam lifejacket that supports rescue and recovery.

Product benefits

- Certified to ISO 12402-4:2020 (CE) for reliable flotation performance.
- Large flotation collar supports the head and helps turn an unconscious wearer face-up.
- Raw materials tested to ISO 12402-7 and ISO 12402-8 for strength and durability.
- Crotch strap, waist fastener and hem drawstring provide a secure, adjustable fit.
- SOLAS retroreflective tapes and integrated whistle improve visibility and aid rescue.
