

Lifejackets 100N Childrens LALIZAS

Product information

The LALIZAS Lifejacket 100N Fluo Orange with Aquatic Pattern is a foam lifejacket designed for babies and children who may need to wait for rescue in sheltered waters. It provides inherent buoyancy and is engineered to turn an unconscious wearer into a face-up position while supporting the head above the water. Certified to ISO 12402-4:2020, it combines reliable flotation with a child-friendly aquatic pattern.

Best used for:

- Babies and children participating in recreational or commercial marine activities in sheltered waters.
- Situations requiring a certified 100N foam lifejacket with enhanced head support and secure fit.

Product benefits

- Certified to ISO 12402-4:2020 (CE) for dependable flotation performance.
- Large flotation collar supports the head and helps turn an unconscious wearer face-up.
- Raw materials tested to ISO 12402-7 and ISO 12402-8 for strength and durability.
- Nappy-style crotch strap on selected child sizes helps keep the lifejacket securely positioned.
- SOLAS retroreflective tapes, integrated whistle and adjustable waist fastening aid visibility and rescue.
