

Lifejackets 150N LALIZAS

Product information

The LALIZAS Lifejacket 150N is a foam lifejacket designed for users who may need to wait for rescue in sheltered waters. It provides inherent buoyancy and is engineered to turn an unconscious wearer into a face-up position while supporting the head to help keep the airway clear. Certified to ISO 12402-3:2020, it is suitable for both recreational and professional marine applications.

Best used for:

- Recreational and commercial marine activities where a 150N foam lifejacket is required.
- Users operating in sheltered waters or wearing light foul weather clothing while awaiting rescue.

Product benefits

- Certified to ISO 12402-3:2020 (CE) for 150N lifejackets.
- Large flotation collar helps turn and support an unconscious wearer.
- Raw materials tested to ISO 12402-7 and ISO 12402-8 for strength and durability.
- Crotch strap, lifting loop, whistle and SOLAS retroreflective tapes support rescue operations.
- Hem-tightening drawstring and waist webbing provide a secure, adjustable fit
