

## Thermal Protective Aid Alusafe-T LALIZAS

---

### Product information

The LALIZAS Thermal Protective Aid Alusafe-T LSA Code-MER is a thermal protective aid designed to help reduce the risk of hypothermia during prolonged exposure in liferafts and rescue boats. Constructed from aluminium film-coated fabric, it reduces body heat loss while covering a fully clothed survivor, including when wearing an approved lifejacket. It is intended for use as part of onboard lifesaving equipment in accordance with LSA Code requirements.

#### Best used for:

- Liferafts and rescue boats during emergency abandonment and survival situations.
- Commercial vessels and offshore installations requiring LSA Code-compliant thermal protective aids.

#### Product benefits:

- Aluminium-coated fabric reduces convective and evaporative body heat loss.
- Covers fully clothed wearers, including over an approved lifejacket.
- Protects against wind and cold during prolonged survival situations.
- Complies with LSA Code requirements and available with SOLAS/MED and MER certification.
- Universal size fits users approximately 1.45–2.00 m tall and 40–150 kg.

#### Standard:

- SOLAS 74 Reg. III/22, SOLAS 74 Reg. III/32, SOLAS 74 Reg. III/34, IMO Res. MSC.36(63)-(1994 HSC Code) 8, IMO Res. MSC.48(66)-(LSA Code) I, IMO Res. MSC.48(66)-(LSA Code) II, IMO Res. MSC.97(73)-(2000 HSC Code) 8, IMO MSC/Circ.1046, IMO MSC.1/Circ.1628/Rev.2, SOLAS 74 Reg. III/4, SOLAS 74 Reg. X/3
