

Work Vest 50N LALIZAS

Product information

The LALIZAS Work Vest 50N is a buoyancy aid designed for professionals working on or near the water where buoyancy assistance is required without restricting movement. Its lightweight, open-sided design and durable flame-retardant construction make it suitable for demanding industrial and marine work environments while complying with the latest ISO 12402-5:2020 requirements.

Best used for:

- Commercial marine, port, offshore and dockside work requiring a 50N buoyancy aid.
- Work environments where freedom of movement, comfort and tool accessibility are important.

Product benefits

- Open-sided design improves mobility and wearing comfort during work.
- Flame-retardant polyester outer material suits demanding industrial environments.
- Two adjustable waist webbings with stainless steel D-rings and hooks provide a secure fit.
- Fabric tool pocket keeps essential small equipment within easy reach.
- Compliant with ISO 12402-5:2020 (CE), with materials tested to ISO 12402-7 for strength and durability.
